Résumé: Dr. Matthias Mittner (born Ihrke)

Contact Information

Matthias Mittner (born Ihrke)

University of Tromsø
Huginbakken 32
9037 Tromsø
Norway

Phone: +47 776 46371 (office)
E-mail: `matthias.mittner@uit.no`
Web: `http://ihrke.github.io/`

Personal Information

Date of birth: September 1, 1982
Place of birth: Eberswalde, Germany
Nationality: german
Marital Status: Married to Lilli Mittner
Children: Kuno, Josefine & Klara Mittner

Education

Dr. phil. (summa cum laude) — 21.12.2011
University of Frankfurt, Germany
Thesis: "Binding and Retrieval of Stimulus-Response Episodes in the Negative Priming Paradigm"

B. Sc. in Computer Science — 2005/07 – 2008/04
Institute of Computer Science, University of Göttingen, Germany
Thesis: "Single Trial Estimation and Timewarped Averaging of Event-Related Potentials"

Diploma in Psychology — 2005/07 – 2007/11
Department of Psychology, University of Göttingen, Germany
Thesis: "Negative Priming and Response-Relation: Behavioural and Electroencephalographic Correlates"

Student at the University of Oslo — 2004/08 – 2005/06
Oslo, Norway
Erasmus-Scholarship; studies of computer science and psychology

B. Sc. in Psychology (equivalent) — 2002/09 – 2004/07
Department of Psychology, University of Göttingen, Germany
Thesis: "An Adaptive Approach to Memory-Span Tasks"

High-School Diploma — 2002/06
Alexander von Humboldt Gymnasium, Eberswalde, Germany
main subjects physics and mathematics

Employments

Associate Professor — 2014/04 – present
Institute of Psychology, University of Tromsø, Tromsø, Norway
Cognitive Neuroscience

Post-Doctoral Researcher — 2013/04 – 03/2014
Cognitive Science Center Amsterdam, Universiteit van Amsterdam, The Netherlands

Cognitive Neuroscience (Birte Forstmann)

Post-Doctoral Researcher 2012/09 – 2013/03
Max-Planck Institute for Experimental Medicine, Göttingen, Germany
Theoretical Neuroscience (Robert Gütig)

PhD-Student 2008/10 – 2012/01
Max-Planck Institute for Dynamics and Self-Organization, Göttingen, Germany
Göttingen Graduate School for Neurosciences and Molecular Biosciences (GGNB)
Doctoral Program: Theoretical and Computational Neuroscience (PTCN)

Guest Researcher 2008/03 – 2008/09
Max-Planck Institute for Dynamics and Self-Organization, Göttingen, Germany
cognitive modelling and data-mining (EEG)

Guest Researcher 2007/11 – 2008/02
Max-Planck Institute for Informatics, Saarbrücken, Germany
section for computer graphics; optical modelling and psychophysics

Research Assistant 2005/09 – 2007/10
Bernstein Center for Computational Neuroscience, Göttingen, Germany
cognitive modelling; psychophysical experiments

Student Assistant 2003/09 – 2004/08
Departement for Developmental Psychology, University of Göttingen, Germany
computer administration and development of experimental software

Scientific Activities

Leadership
Leader of research group "Cognitive Neuroscience" at the institute for psychology, university of Tromsø (2018–)
`http://www.uit.no/research/cognitive-neuroscience`

Professional Memberships
Member of the Society for Neuroscience
Program Committee Member "International Conference on Intelligent Data Engineering and Automated Learning" 2010 and 2011
Member of the Research Priority Program Brain and Cognition at the Cognitive Science Center Amsterdam (CSCA)
Review Editor for "Frontiers in Psychology"

Committee
IDEAL 2010/2011 (program-committee)
Evaluation committee for several PhD and post-doc positions (IPS/UiT)
Member of "Master committee" (responsible for master studies at IPS/UiT; 2015–2016)
Vararepresentant programstyret psykologi (IPS/UiT; 2017–)
Committee leader for PhD defence of Sara Vambheim (2018)
Committee leader for PhD defence of Bjørn Eivind Kirsebom (2019)
Opponent for thesis of Alexandra Vik (University of Bergen, 2019)
Committee development of evaluation strategy at IPS (UiT, 2018–)
Committee for selection of student price for best thesis (clinical program, 2018–)

Advisor
Netherlands Organisation for Scientific Research (NWO) - Vici Social Sciences and Humanities
Hertie Foundation Project: Improvement of school education by neuroscientific research

Organizing
Organizer for Methods-course "Introduction to Python programming" (2012)
Organizer for Methods-course "Matlab and Python programming" (2011)

Conferences
Invited presentations:
– The Role of Neural Oscillations in Human Cognition (Summer School, Uslar, Germany), 2017
– 12th International Conference on Cognitive Neuroscience, Brisbane, Australia (ICON 2014)
Various talks and posters at national and international conferences (CNS 06/07, BCCN symposia, TeaP, ICP2008, IDEAL, IJMC, NWG, SfN, MathPsych, ICON2014, ICON2017)

Advanced Courses
Program for young research leaders 2014–2015; joint program UiO, UiB, NTNU, UiT – leadership, networking, financing, communication, strategy

DGPs Course on Recording and Analysis of Eye-Movements (Niels Galley), Cologne 2008

Course on Computational Neuroscience at the Max-Planck-Institute for Dynamics and Self-Organization 2005

Reviewing
Reviewer for Spring Conference on Computer Graphics 2008 (SCCG08)
Ad-hoc Reviewer for Cognitive Neuropsycholoy, NeuroImage, Journal of Cognitive Neuroscience, Social Cognitive & Affective Neuroscience, Frontiers in Psychology
IDEAL 2010/2011 (PC-member)

Publications

Pre-prints (unpublished)

(39) Zmeykina, E., *Mittner, M.*, Paulus, W. & Turi, Z. (2019). Weak rTMS-induced electric fields produce neural entrainment in humans. `https://psyarxiv.com/k2z8u/`. status: submitted

Teaching

Lectures and supervision (University of Tromsø) from 2014

Undergraduate Level
- Methods and Statistics III (PSY-1513)
- Methods and Statistics I (PSY-1511)
- Cognitive Neuroscience (PSY-2547, PSY-2553)
- Affective Neuroscience (PSY-2549)
- Biological Psychology (PSY-1004)
- Psychometrics (PSY-1504)
- Practical Course: Gerontopsychology (PSY-2543)
- Research Practical (PSY-1509/1510)
- Research skills for Master students (PSY-3900)
- Research communication (PSY-1702)

PhD Courses
– Quantitative Research Methods (HEL-8024)
– Applied Linear Regression (HEL-8030)
– Research Design and Statistics (PSY-8002)
– Quantitative Method in Clinical Health Research (HEL-8017)
– Informal reading club for PhD students and faculty: Bayesian statistics

Introduction to Neuroscientific Methods and Brain Anatomy summer 2013
Master-level course (University of Amsterdam)
lecture and practical on electroencephalography

Linear Regression (PSY-8012) from spring 2015
PhD course (10 credit points)

Introduction to Python Programming (A123) winter term, 2011/2012
GGNB methods course (introductory level), University of Göttingen

Gestaltung von Lehr-Lernprozessen summer term, 2010
Introductory seminar to the psychology of learning and teaching for students pursuing teaching certification; University of Göttingen

Matlab and Python Programming (A109) winter term, 2010/2011
GGNB methods course (introductory level); University of Göttingen

Supervision

Post-Doc supervision

Dr. Gábor Csifcsák (2016–)	"Optimizing transcranial direct current stimulation for treatment of chronic pain and depression" (HelseNord, PFP1237_15)

PhD students

Josephine Groot (2018–)	"Neural mechanisms of off-focus cognition" (co-supervisor: Prof. Birte Forstmann, UvA)
Nya Mehnwolo Boayue (2016–)	"Neural and computational correlates of mind wandering" (co-supervisor: Gábor Csifcsák, UiT)
Isabel Viola Kreis	"Too precise or too imprecise: which parameter is gone awry in autism and psychosis", University of Tromsø (co-supervision, main supervisor: Gerit Pfuhl)
Zsolt Turi (2011–2015)	"Methodological and cognitive aspects of transcranial electrical stimulation", University of Göttingen (co-supervision, main supervisor: Prof. Andrea Antal)
Wouter Boekel (2013–2017)	"When the brain takes a break: Neural correlates of mind-wandering", University of Amsterdam (co-supervision, main supervisor: Prof. Birte Forstmann)

Master/Diploma students

Tarjej Hotvedt (2016)	"Mindfulness and Psoriasis: A pilot study", UiT
Are Svend (2014/2015)	"Eksistensiell dynamisk terapi på inneliggende pasienter – en eksplorerende studie av utfall og relasjonelle virkningsmekanismer", UiT (co-supervisor)
Ida Marie Opdahl (2014/2015)	"Wandering body, wandering mind? The relationship between bodily movement, creativity and mind-wandering.", University of Tromsø

Ira Beckmann (2010)	"Negatives Priming als Identifikations- oder Selektionsphänomen", University of Göttingen

Research Assistents

Divyaratan Popli	Eye-tracking and pupillometic correlates of mind wandering (2013, University of Amsterdam)
Isabel Viola Kreis	The role of executive functions in mind wandering (2016, University of Tromsø)
Carole Schmidt	The role of executive functions in mind wandering (2017, University of Tromsø)
Iselin Finn	(2018)
Anna Elfrida Vollsund	(2018)
Celina Jakobsen	(2018–)

Bachelor students

Christian Fossheim (2015)	"Moment-to-moment fluctuations in emotional valence and mind-wandering"
Ingrid Marie Skjerstad (2017)	"The wandering mind of the long-distance runner"
Anna Elfrida Vollsund (2018)	"Effectiveness of HD-tDCS on influencing executive control during mind wandering" (`https://osf.io/nm2sz/`)
Iselin Finn (2018)	"Effectiveness of HD-tDCS on influencing executive control during mind wandering" (`https://osf.io/nm2sz/`)
Kristian Østhagen Haukås (2019)	"The wandering mind of the long-distance runner"

Grants

HelseNord project PFP1237_15 2015–2018
3 million NOK (≈ 350.000 EUR)
Optimizing transcranial direct current stimulation for treatment of chronic pain and depression
(3 year full-time post-doc project)

PhD candidate from Health faculty, UiT 2016–2020
Neural and computational correlates of mind wandering
(4 year PhD project)

Personal Scholarships & Awards

Incentive grant 2017
Grant awarded by the Faculty of Health for excellent grades in external applications (200k NOK), University of Tromsø

Incentive grant 2016
Grant awarded by the Faculty of Health for excellent grades in external applications (200k NOK), University of Tromsø

Research Prize 2015
Research prize from the Institute for psychology, University of Tromsø

GGNB Fellowship 2009/05–2012/01
Full–Time PhD Scholarship offered by Göttingen Graduate School for Neurosciences and Molecular Biosciences (GGNB)

GGNB Bridging Fund Scholarship 2008/10–2008/12
Scholarship offered by Göttingen Graduate School for Neurosciences and Molecular Biosciences (GGNB)

DFG Scholarship 2009/01–2009/04
Full–Time Scholarship "Passungsverhältnisse schulischen Lernens: Verstehen und Optimieren"

Erasmus Scholarship 2004/07–2005/08
Scholarship for studies abroad, Oslo (UiO), Norway

Skills

Experimental Methods
fMRI, EEG/ERP, EOG, tDCS, eye-tracking, pupil diameter

Programming Languages
Very Good: Python, R, C, C++, Matlab/Octave
Good: Perl, Java, SQL, PHP, Presentation
Moderate: F77, Assembler, Objective C, Bash, Javascript

Computing
Parallel Programming (MPI), GPU Programming (OpenGL), Unix/Linux Administration, LaTeX, HTML/CSS

Languages

German (native)
English (fluently written, read and spoken)
Norwegian (fluently written, read and spoken)
French (basic skills)
Dutch (basic skills)

Sports

running, skiing, judo, rock-climbing, hiking, table-tennis, football
